Jatinangor, Sumedang, West Java, Indonesia

A dedicated Marine Science undergraduate at Universitas Padjadjaran with a deep focus on oceanography, marine cartography, and coastal resource management. I specialize in transforming complex spatial and oceanographic data into actionable insights using GIS software and Python. I am currently seeking academic and professional opportunities to apply my technical skills and contribute to impactful marine science projects.

Work Experiences

Torgas Laboratory - West Java, Indonesia Apr 2024 - Present
Research Assistant

- Mangrove Carbon Storage: Conducted comparative research on carbon sequestration within artificial mangrove ecosystems
- Java Blue Odyssey 2026: Performed biomass and sediment field sampling across multiple coastal sites in East Java

Marine Geological Institute - West Java, Indonesia Feb 2025 - Jun 2025
Intern

- Contributed to the ATLAS project, focusing on the characterization of Java's Northern Coastline
- Analyzed Total Suspended Solid (TSS) distribution in Jakarta Bay using satellite imagery data

ACADEMIC LEADERSHIP GRANT (ALG) - West Java, Indonesia Jul 2025 - May 2026
Research Assistant – Small Scale Fisheries in Pangandaran Regency

- Responsible for collecting primary data on the socioeconomic impact on fishing communities in Pangandaran Regency through surveys and interviews
- Processing spatiotemporal data to map small-scale fishing patterns in Pangandaran

Torgas Laboratory - West Java, Indonesia Jan 2026 - Present
Assistant Laboratory

- Strategize digital lab instrument policies and integration
- Align tools with industry compliance and standards
- Optimize instruments to accelerate research processes

Education Level

Universitas Padjadjaran - West Java, Indonesia Aug 2022
Undergraduate, 3.60/4.00

- Laboratory Teaching Assistant: Led practicums and evaluated reports for Marine Biology, Chemical Oceanography, Bioremediation, and Marine Pollution courses
- Facilitated weekly laboratory sessions and field practicums, ensuring students' adherence to safety protocols and technical procedures

Institut Pertanian Bogor - West Java, Indonesia Aug 2024 - Dec 2024
Student Exchange, 4.00/4.00

- Relevant Coursework: Water Pollution & Treatment Tech, Aquatic Resources Information Systems, and Aquatic Ecosystems Modeling

Organisational Experience

KOMITMEN - West Java, Indonesia Aug 2024 - Aug 2025
Head of Padjadjaran Oceanographic Data Center Berau

- Managed and developed the PODC website (<https://podc.fpik.unpad.ac.id>)
- Organized and delivered training and academic development sessions, including topics on big data in marine science
- Held responsibility for ensuring the accuracy and quality of scientific content shared with both members and the broader public

Skills, Achievements & Other Experience

- **Trainer – KOMITMEN (2025):** Instructed a specialized workshop on utilizing Python to analyze and visualize marine water quality parameters
- **Committee Member – PADO (Professor Discovery to Protect Our Ocean) Series 10 (2025):** Responsible for ensuring the smooth operation of the event, including technical coordination and on-site communication and Gained insights from expert speakers on coastal oceanography and sustainable marine practices
- **Hard Skills:** Geographic Information System, Python, Ocean Modelling
